

PRO- OX® 100

Advanced Purge Monitor

The Most Advanced Oxygen Monitor

The PRO OX® -100 Oxygen Monitor accurately measures concentration of oxygen in purged tubing and high purity weldments with 0.01% (100 ppm) resolution.

Features:

A battery powered, re-chargeable, programmable, handheld digital oxygen monitor with an internal pump. The state-of-the-art device is equipped with several features including an audiovisual alarm system, easy to read high-contrast, digital LCD display, data logging capability and data output to a computer for recording history. Complete with 1 year warranty on sensor and unit.

Kit Contains:

- PRO OX-100® Monitor,
- Sensor and Polycarbonate Carrying Case,
- Ultra Slim Stainless Steel Probe with Neoprene Extension Tubing for Remote Monitoring
- Re-chargeable Battery & Charging Dock
- Phillips Head Screwdriver
- USB Cable
- Manual and Quick Instructions.
