

Cleanox 4.0 Weld Cleaning Machine

Cleaning and polishing of TIG seams and bright or dark marking: The Cleanox 4.0 is the entry device into the AC/DC class. Built using reliable and powerful transformer technology it cleans quickly and effectively, using our XL carbon fibre brushes. In direct current (DC) mode it can be used for polishing to create a mirror-like surface.

Features

- Power transformer design
- Portable design with handy shoulder strap
- Available with optional marking kit
- Supplied with handy plastic storage box
