

PROSeries Tube Cutting Blocks

PROSeries Tube Cutting Blocks unique solution for cutting existing insitu tubes square without deformation. They provide a self clamping guide for using a reciprocating sabre saw to cut tubes ready for rewelding in areas not possible with coventional cutting tools.

Features

- Heat treated steel construction for longevity
- All standard tube sizes available
- Can be clamped over an existing weld
- Knurled knob to strong alignment and clamping
- Supplied individually or in a rugged plastic hard case with foam inlay

 SOME SPECIALITY SIZES SUCH AS SCHEDULE PIPE, DIN AND OTHER INCH SIZES ARE ALSO AVAILABLE. PLEASE ENQUIRE
